## FIELD TOOL KIT – Undercarriage Measurement Kit

The WTC Machinery FIELD TOOL KIT contains the measuring tools needed to check for wear on standard undercarriage components – idlers, rollers, track links, track bushings and grouser pads – along with cleaning tools and a storage bag to organize and protect the tools when not in use.

### **MEASURING TOOLS**

---

- FIELDTOOL-001** – 4” Outside Caliper – checks the outside diameter of small track bushings
- FIELDTOOL-002** – 6” Outside Caliper – checks the outside diameter of large track bushings
- FIELDTOOL-003** – 12” Outside Caliper – checks the diameter of track rollers
- FIELDTOOL-004** – 6” Steel Rule – measures readings of the 4” and 6” Outside Calipers and Depth Gauges
- FIELDTOOL-005** – 12” Steel Rule – measures readings of the 12” Outside Calipers and Depth Gauges
- FIELDTOOL-006** – Tape Measure 10 Foot / 3 meter – measures track pitch and idler diameters
- FIELDTOOL-007** – 200 mm Vernier Caliper – measures the outside diameter of track bushings and rollers
- FIELDTOOL-008** – Putty Knife – cleans the undercarriage before measuring
- FIELDTOOL-009** – Wire Brush – cleans the undercarriage before measuring
- FIELDTOOL-010** – 13½” Depth Gauge – measures wear on track bushings, grouser cleats and rollers  
(use with the 4½” and 9” Gauge Rods)
- FIELDTOOL-011** – 5” Depth Gauge – measures wear on track bushings, grouser cleats and rollers  
(use with the 4½” and 9” Gauge Rods)
