

WTC MACHINERY Engineered to perform. Built to last.

WTC Machinery is a global leader in designing and building machinery and tooling for heavy equipment repair facilities.

Seal Tester Lubricator

Overview

The WTC Machinery Seal Tester and Lubricator is the portable solution for testing and oiling track chain, and also services rollers and idlers. The Seal Tester and Lubricator offers a compact handle with push button controls for Vacuum Test and Oil Dispense and an easy-to-read test gauge. With large lubricant capacity and roll-around cart, the Seal Tester and Lubricator works anywhere there's compressed air.

Specifications:

Air Supply:	4.2 SCFM (0.11 m ³ /min) at 70 psi (4.83 bar)
Lubricant Capacity:	10 gallons (37.8 liters)
Dry Weight:	104 lbs (47 kg) Hz

One (1) A2024 Blunt Needle is included with 061119 Seal Tester

Additional/Optional needles for lubricating track chains:

Part Number	Description
A2024	Blunt Needle -normally used for CAT track
A2679	Rounded Tip -small diameter normally used on JD and Komatsu track
A3334	Sharp Tip - normally used on seals that are self-sealing (Sorefa)
A3422	Shaft of needle has two diameters and an open tip
